MEMORANDUM

TO: Local Government Sustainable Energy Coalition
FROM: Jody London
DATE: July 8, 2009
SUBJECT: Upcoming Energy Efficiency Filings and Meetings

This memo provides an update on many upcoming potential filing and dates on energy efficiency issues at the California Public Utilities Commission, and my recommendations on how the Local Government Sustainable Energy Coalition should respond. Because I am going to be on vacation July 9-25 with intermittent access to the Internet, I ask your cooperation in helping meet those deadlines where I recommend we take action. (It's a car camping vacation; we've mapped out where there are WiFi spots in the Grand Teton and Northwest areas.) You will see there are no activities in August (yet). I assume this is because the CPUC expects to issue a Proposed Decision sometime in August, according to its latest schedule.

Date	Activity¹	Recommended Action
July 10	reply comments on energy efficiency workshops	draft comments circulated 7/8
July 10	Responses to LGSEC Motion to Extend Bridge Funding	After reviewing responses, determine whether we want to request opportunity to submit a reply on July 27
July 16	comments on utilities' supplements to amended applications, filed July 2	file brief comment on program cycle – SCE recommends it be changed to 2010 – 2012
July 17	comments on ALJ Ruling issued July 7, 2009, seeking input on EM&V	no comments
July 20	comments on PG&E Advice Letter 3030, seeking permission to use unspent energy efficiency funds from prior years	file brief comment in general support, but expressing concern over criteria for allocating funds among programs and pointing out that this doesn't address bridge funding problem in other utility service territories
July 23	Workshop on Whole Neighborhood approach (low income docket, A.08-05-022 et al.)	Folks may attend if they wish
July 27	(1) reply comments on supplements to amended applications	No comments

¹ Unless otherwise noted, all activities are in the docket that is considering the utilities' applications for 2009-2011 energy efficiency programs, A.08-07-021, et al.

Date	Activity¹	Recommended Action
July 27	(2) reply comments on EM&V	No comments
July 27	(3) reply to comments on LGSEC Motion to Extend Bridge Funding	To be determined
July 29	public participation hearing in energy efficiency docket, San Francisco, 2:00 p.m.	Jody will attend
